Create IBM Watson IOT Platform

Create IBM Watson IOT device

This screenshot shows the 'Browse' page for devices in the IBM Watson IoT Platform. The browser's address bar shows 'ezj2wy.internetofthings.ibmcloud.com/dashboard/devices/browse'. The page includes a sidebar with navigation icons and a top navigation bar with tabs for 'Browse', 'Action', 'Device Types', and 'Interfaces'. A blue 'Add Device' button is located in the top right. Below the navigation, a text block explains that the table shows a summary of all devices and can be filtered, organized, and searched. A search bar labeled 'Search by Device ID' is present. To the right of the search bar, there is a 'Device Simulator' toggle switch and icons for list and filter views. The main content area contains a table with the following data:

<input type="checkbox"/>	Device ID	Status	Device Type	Class ID
> <input type="checkbox"/>	12345	Disconnected	NodeMCU	Device

Below the table, there is a pagination bar showing 'Items per page 50', '1-1 of 1 item', and '1 of 1 page' with navigation arrows.
